Heat Shield

Heat Shield Innovation to perform

SUPER PREMIUM COMPOUNDS FLAME RETARDANT

Trelleborg Heat Shield, a compound engineered for use on applications in the metal processing industry, handling hot and cold slag.

Available on Brawler HPS and HD smooth tires not featuring Solidflex elliptical apertures to avoid hot material lodging in the tire.

Engineered to withstand the high ambient temperatures associated with metal production.

Main Benefits

- Protects the tire against damage from heat source
- Eliminates the need for expensive tire chains
- Reduced downtime from the fitting and maintenance of chains
